

## **Sprint Planning #1**

**Sprint Ends:** February 28th

**Hours Spent Working:** 6 hours

**Scrum Master:** Tom

**Team Members:** Kelsye, James, Camila

### **What To Do Next:**

\*\*Stories are on GitHub project, this is a basic rundown on what we expect to have done this sprint

- Create navigation graph
- Add database and authentication to files project
- Add basic navigation and login abilities
- Implement user connection to database
